

INTRODUCING OUR FIRST NEWSLETTER!

We wanted a way to get in touch with you and to better inform you about all the things happening at Clifford. That is why we will be issuing a company-wide newsletter 4 times a year. Our goal is to provide you bits of information

on topics including:

- Health & safety tips
- New & ongoing projects
- New policies & procedures
- Upcoming events

IN THIS ISSUE

Introduction

Casa Loma

Certificate of Recognition

Working at Heights

PROJECT SPOTLIGHT

Casa Loma

The revitalization project at Casa Loma has been comprised of over 12 phases of varying scopes and duration. All together the project has taken a decade to complete.

During the final phase of work, Clifford crews catalogued, dismantled and rebuilt the Norman Tower and its chimneys. Additional restoration of various architectural embellishments was completed, including the South-West Lantern and crenellation.

Throughout each phase, a Roman Stone mix design was used which adhered to the project requirements for stone strength, longevity and other physical properties. The chimneys were then reconstructed with replicated stone to match the original stone profiles.

Awards Won:

CAHP 2017, Award of Merit
Heritage Toronto 2017, Award of Merit

Old Don Jail

COR *Originating in Alberta, Certificate of Recognition (COR) is a Health and Safety standard known across Canada.*

Why should it matter to you?

Obtaining COR is one more way to show your safety is our top priority at Clifford. We want you to know that when you come to work with us, you will go home safe at the end of your shift. It also ensures that we will continue to have interesting jobs to work on, as many clients are now insisting their subtrades have achieved COR.

When will it happen? The simple answer is, its already happening. COR is an ongoing process that strives for continuous improvement of a company's HSE Program. While we work on upgrading our program, your HSE team will conduct interviews at select job sites. These interviews will ensure you understand the program. It will also identify areas where we can make it even better.

*Have something you want to hear next time?

What do you have to do?

Speak up and participate in health and safety. Our company and the people that are working beside you are depending on it.

WORKING AT HEIGHTS TRAINING

Working at Heights training requires a refresher every 3 years. Check and make sure your original training does not expire soon. If it does, you will need refresher training. Contact your union to enroll in this training.

Important to note: without your MOL-issued card from the original training, you cannot take refresher training. You might also not be allowed on some jobsites.

To obtain your MOL-issued card, workers will need to contact the MOL Health & Safety Contact Centre :

- email WAH.inquiryline@ontario.ca (best)
- phone **1-877-202-0008** (alternative)

They will be looking for the information on your temporary wallet card, so have it ready when you contact them. Be sure to ask how long you should have to wait for the card to come in the mail to your home.
